7. Read the following passage carefully and answer the questions given at the end:

Making pottery on the potter's wheel is called "throwing". The thrower is a very skilful workman. But there is another method of shaping articles out of clay, "moulding". A plaster mould is made and the clay is pressed into it. This is a quicker and less difficult way to make things like handles, but all the most beautiful pottery is thrown. When a piece of pottery is taken off the wheel, it is put aside to dry, after which a design may be painted on it with special colours that will stand great heat; it is then ready to be fired. This is done in a large oven or kiln. The pieces of pottery are placed in earthenware tubs called "saggers" so that the flames cannot touch the pots.

Questions:

- What is throwing?
- What is the other method of shaping articles?
- What is the advantage of moulding?
- How does the potter make designs on the pieces of pottery?
- How are the pieces of pottery baked in fire?
